Workshop: Creations By Rod, The Great Barn Workshop, Stede Hill, HARRIETSHAM, ME17 1NR

This catalogue has been divided into 2 sections of free-standing units, all of which will also neatly fit into IKEA Units

The “KX” range all neatly fit into IKEA Kallax

All items in this range are 330mm wide and 330mm tall

The depth changes according to the intended contents

(see each item for further details)

New! The “RK” range all neatly fit into IKEA Råskog Trolley

All items in this range are L375mm, W275mm and H140mm

The only difference between the units in this range (apart from the hole shape, size and quantity) is the

vertical gap between the upper and lower platforms,

which is governed by the height of the intended contents

All items are made from MDF, sanded smooth and ready to use (or for you to paint, etc).

IKEA units and contents where shown, are not included - these are for reference only

Discounts for Multiple Items (any mix)

*Bespoke versions
Available - just ask!*

Watch this space!

As well as all my “standard” items, I am always happy to hear from crafters who would like me to build something “bespoke” for them.

email me: rod@creations-by-rod.co.uk

If you would like to request something built for storing a particular product, please email me with as much detail about the product as possible (including dimensions/ diameter, product photos etc). The greater accuracy of millimetres is preferred (but I can convert from “old money” if you find it a lot easier)

No promises, but I'll do my best to accommodate!

I am also pleased to receive any photos of items bought from me, showing them “loaded” (as this can be a great help for other buyers).

PS: If you no longer want/ need this catalogue, please pass it on to a friend, so that they can sort out their “stash”
